  - China patents, standards, e-books, etc.
WHAT CNKI SERVES

Digital Resources
- Academic Journals (Chinese & English)
- Dissertation & Theses
- Newspaper/Proceedings/References
- Statistics/Yearbooks/ Gov. Bulletins
- Law & Regulations/Patents/Standards(GB)
- E-Books (Chinese & English)

Education/Research Software
- Academic Plagiarism Checking System
- Dissertation Delivering and Management
- Collaborative Workflow Platform
- E-Learning Tools
- Research Project

Digital Publishing
- E- Publishing Platform
- Contents Management
- Publishing Technology (Enhanced Publishing)
- Data Publishing

Digital Library Building
- Archive Digitization and Repository Building
- Resources Aggregation
- Library Discovering System
- Institutional Repository
CNKI now has a total of **120 million** individual users (including users in the institutions), with over **20 million visits** per day and **2.33 billion** downloads of literature every year in China.

CNKI provides services to all sectors of China, including universities and colleges, research institutes, government, public libraries, corporations, etc.
CNKI provides services to over 1,500 institutions from 53 countries and regions across North America, Europe and Asia, etc.

SOUTH AFRICA & CHINA — Political Relationship

Close Ties

- Co-chairs of FOCAC
- Members of BRICS
- Members of G20
- Members of UN

Belt and Road Initiative

Chinese President Xi Jinping delivers a keynote speech themed "walk together towards prosperity" in Sept. 3, 2018, that:

- China supports the African countries in jointly building the Belt and Road to share the win-win outcomes;
- China stands ready to strengthen comprehensive cooperation with the African countries to build a road of high-quality development that is suited to national conditions, inclusive, and beneficial to all;

China welcomes South Africa's participation in the International cooperation of Belt and Road Initiative, and as a pilot country to align the Belt and Road Initiative with African development.
In 2014, China and South Africa signed the Cooperation Framework Agreement on Primary Education, with the consensus to encourage the mutual learning of languages, literature, culture and history;

In 2016, Chinese-language, paralleled with other 13 foreign languages, was officially included into South Africa’s education system.

Recent years, South Africa and China signed the Cooperation Agreement on Higher Education, the Agreement on Degree Mutual Accreditation, etc.

The oversea students between China and South Africa increase greatly each year. According to a rough statistics, South African oversea students in China was more than 4,000 till 2018, and over 10,000 Chinese students chose to further study in South Africa till 2018.

There are 5 Confuses Institutes in South Africa now, which ranks top 1 in African Continent. They are University of Stellenbosch\ Durban University of Technology (DUT) \ University of Johannesburg \ Rhodes University, etc.
The South African president and China President pledged to implement the consensus reached between the two sides and deepen all-round cooperation in such areas as economy, trade, technology and people-to-people exchanges.— 2018 FOCAC

According to the statistics in 2017, China had invested 100 billion US dollars in South Africa. The bilateral trade had reached to 391 billion US dollars in industries like mineral, locomotive, household electrical appliance, automobile, real estate, catering, etc. China has been the biggest trade partner of South Africa for 9 years.

In 1999, China and South Africa co-built a Joint Committee for S&T Cooperation, and each year, 15 bilateral programs would be collected. More than 1,000 co-written (not including the third country members) academic papers on engineering, chemistry, physics, mathematics, etc. were published till 2017, among which 128 were cited in SCI, which was a great leap than 1999 (with only 2 cited in SCI).

In recent years, South Africa and China have built a more close cooperation on flagship programs involving Mine Spatial Geographic Information, astrophysics, etc. Meanwhile, cooperation on satellite technologies, telecommunication, energy, finance, transportation, E-commercial, social medium, etc. are conducted.
SOUTH AFRICA & CHINA — Mutual Studies

African Studies in China
China Studies in South Africa

The Centre for Chinese Studies (CCS), at Stellenbosch University is the most prominent and high quality point of reference for the study of China and East Asia on the African continent. It’s analysis is based on academic standards. Its research areas include:

**Political:** Assessing the actors in China-Africa relations, including their mandates, goals and policies.

**Economic:** Analyzing trade, investment and aid relations between China and Africa, on a continent wide basis.

**Environmental:** Evaluating the environmental effects and the potential for increased sustainability within the China-Africa engagement.

--Has programs on China’s culture and Ideology through the studies of China’s Philosophy

The School of Business, at Rhodes University has conducted a comparative studies on China-South Africa’s economic development.
1. China, as a huge country with rich civilizations and high academic influence, the academic yields would be helpful to be referred to. CNKI, is the perfect gateway to know China’s academic progress both in Social Sciences and STM;

2. CNKI is new to South Africa, but as an important part for “The Belt and Road Initiative”, it is vital to have CNKI collections for strategic needs;

3. CNKI, as China’s largest digital library platform provider, could be your Provider and Partner for Building up of World-Class University and Library;
WHY CNKI: International Citation Keeps Rising

The International Influence of Chinese Academic Journals keeps rising from 2013 to 2017

Note: Data from the Annual Report for International Citation of Chinese Academic Journals
China Academic Journals with JCR journals in 2017

The TOP Chinese S&T journals have reached to the medium level of SCI journals. The TOP Chinese SS journals were in general lower level due to the language limits, but still had relative higher cites than many SSCI journals.
Select and translate highly-cited articles from top journals of China: 20,000 articles from 138 journals
English Full-text database: 138 translated journals + 147 English journals published in China + English Proceedings
China Data Insights provides users with easy and accurate access to figures, tables and titles. 1,086 kinds of statistical yearbooks, 1,469,119 tables, and 13,129,023 indicators, covering 18 topics.
